TECHNICAL SKILLS

Languages: JavaScript, Java, C++, HTML, CSS

Frameworks & Libraries: React, Node.js, JavaFX

Backend & Data: RESTful APIs, API Integration, JSON, SQL, MySQL, SQLite

Tools & Platforms: Git, VS Code, SharePoint, Smartsheet

Core Concepts: OOP, Asynchronous Programming, Data Structures, API Design, Debugging & Troubleshooting, MVC

PROJECTS

FlowForge - Workflow Builder Application | Java, JavaFX

- Built a desktop workflow app for creating and managing task-based workflows, including drag-and-drop interactions and real-time UI updates.
- Added task dependency mapping and execution-order logic using object-oriented design, data structures, and event-driven programming.
- Used SQLite and JSON serialization to save workflow data locally, and added PDF export for workflow reports and visualizations.
- Organized the application around MVC principles to keep the code easier to maintain and expand.

InsightBoard - Workflow Analytics Dashboard | React, JavaScript

- Built an interactive analytics dashboard that turns JSON workflow data into task-completion trends, status breakdowns, and other useful insights.
- Used React components and state management to support filtering and responsive interface updates.
- Handled asynchronous data with async/await and added loading and error states for a smoother, more reliable experience.

PROFESSIONAL EXPERIENCE

Corporate & IT Assistant | Westford Real Estate Management | Vernon, CT

Mar 2024 - Sep 1, 2026

- Managed user lifecycle workflows across multiple systems and kept records accurate and consistent.
- Troubleshot system and data issues, traced problems to their source, and worked through practical fixes.
- Managed email aliases, rules, and access permissions, along with SharePoint structure, migrations, and permissions.
- Created and maintained tracking systems to keep records accurate, support audits, and make recurring workflows more consistent.

Assistant Teacher | Bright Horizons | Bloomfield, CT

Jun 2021 - Mar 2024

- Managed daily schedules, tracked developmental data, and communicated progress with families and team members.
- Helped improve processes and engagement efforts that contributed to a 20% increase in program enrollment.

Sales Associate | Victoria's Secret | Manchester, CT

Sep 2019 - Jun 2021

- Met sales goals and helped roll out a rewards program that increased customer traffic.

Sales Associate | JCPenney | Manchester, CT

Nov 2018 - Sep 2019

- Helped customers, supported day-to-day store operations, and assisted with merchandising in a fast-paced retail environment.

EDUCATION

Bachelor of Science in Computer Science - Johnson & Wales University, Providence, RI | Graduated 2025
